SUMMARY

- Working with **Wipro** as a **Senior Software Engineer**, with **Cisco** as client. Work is on Cisco's line of products namely **Cisco Meeting Server**. These are secure, video, audio, and web communication products.
- Diverse work experience (**11 years**) across IT industry (**7 years**) and academia (**4 years**) alike. From roles of Software engineer, to Researcher alike.
- Skills and Experience in development of Firmware, Device Drivers, Embedded Applications etc with Embedded Linux, RTOS over AVR, ARM, RISC, Intel x86 platforms.
- Skills in **Python (Beginner)**, **C (Advanced)**, **Embedded Linux (Advanced)**. Exposure to complete SDLC and Agile processes, Scrum, GIT with many open source frameworks and libraries.

TECHNICAL SKILLS

Product : Embedded Systems, Embedded Software, Embedded Linux, Buildroot, Yocto, Secureboot

Languages : C, Embedded C, Python, BASH Shell scripting, $\text{\LaTeX}$, Assembly, RUST

Hardware : ARM Cortex, STM32/ESP32, BlackFin, x86, RISC-V **Platforms**: Arduino, Raspberry Pi

Protocols : TCP/IP, UDP, SIP, VoLTE, VoWiFi, UART, USART, SPI, I2C, USB, CC2500, WiFi, ZigBee, 802.x, CAN, Ethernet, FlexRay, 3GPP, network drives, and protocol stacks in IR 4.0 and in IOT, IOT-Ops, IOT-OS

Software Frameworks and Libraries : MATLAB, GNU Octave, GIT, OpenCV, OpenCL, H.264, H.265, OpenMP, Wireshark and various open source libraries and frameworks

Operating System : Ubuntu, Red Hat Linux RHEL 4/Fedora, Android, Embedded Linux, uClinux, Vmware EXSI, OpenStack, Virtualbox

Cloud : AWS, GCP, Azure, Docker, Kubernetes, NFV/SDN, GIT, Containers, JIRA, GitHub, GitLab, Bitbucket, Jenkins, CI/CD practices

PROFICIENCY

Product : **Board bring up(4/5)**, **Linux Kernel internals(3/5)**, **Secureboot(5/5)**

Programming : **C (5/5)**, **Python (4/5)**, **BASH (4/5)**, **C++ (2/5)**

OS : **Linux (5/5)**, **Embedded Linux (5/5)**, **Android (5/5)**

Cloud : **Docker (4/5)**, **Google Cloud (3/5)**, **AWS (3/5)**, **Azure (3/5)**, **Kubernetes (3/5)**

Soft-skills : **Communication skills (5/5)**, **Mentoring (4/5)**, **Workshops (4/5)**, **Leadership (3/5)**

EXPERIENCE

Senior Software Engineer

May 2022 - till date — 4 years 5 months

Wipro (parent) Cisco (client)

Bangalore, India

- * The underlying work is on Cisco UCS (Unified Computing System) and on Cisco's CMS (Cisco Meeting Server)
- * Leading design, development and maintenance with the Platform team. Responsibility is on the OS side, Linux kernel, device drivers, libraries up-gradation, application support etc.
- * Optimizing performance and security of CMS1k, CMS2k. Resolving JIRA tickets for bugs, CVEs,
- * Knowledge and skills on: **Virtualization**: Docker, Containers, Hypervisor **Programming**: Buildroot, Linux, C, Shell scripting **Build**: Jenkins, Git: bitbucket, GitHub, Cisco UCS server, **Libraries and Tools**: Ansible, Jira, Vmware EXSI, Embedded Linux, OpenSSL, OpenSSH, CiscoSSL, CMS-GCC-toolchain, etc.
- * Leading SecureBoot feature implementation right from Bootloader (Uboot, Grub), to kernel (encryption with security certificates), to application.

Assistant Professor

March 2016 - April 2018 — 2 year 1 month

MIT (Maharashtra Institute Of Technology)

Aurangabad, Maharashtra, India

- * I was working as an Assistant Professor in the Department of Electronics and Telecommunication. Responsibilities include Academics, Administration and Research activities.

- * I was teaching the courses of ETC421: Advanced Embedded Systems Design, and ETC320: Radar and Satellite communication.

PHD Researcher

Sept 2013 - March 2015 — 1 year 6 months

TU Ilmenau Germany

Ilmenau, Thuringia, Germany

- * I was working as a PhD student in the graduate school in mobile communications (GS MOBICOM), TU Ilmenau, Germany
- * My work was at the intersection of Embedded Systems, Digital Communications, and Artificial Intelligence, the topic being "Self Organized Multi UAV Message Ferrying". I had to discontinue as our graduate school was dissolved due to the cancellation of funding.

Software Engineer

May 2012 - November 2012 — 7 months

mAmigo Inc. (Now Seastar)

Bangalore, Karnataka, India

- * I worked with mAmigo Inc. as a Software engineer on embedded projects. Primarily involved in IRIS based bio-metric security device.
- * Implementing Board bring up: From boot loaders, kernel images of Linux & uClinux, device drivers to end applications, using build tools like OE ie Open embedded, buildroot etc. on ARM and Blackfin platforms

Technical Associate R&D

January 2009 - June 2010 — 1 year 6 months

ThinkLABS Technosolutions Pvt. Ltd.

SINE IIT Bombay, Mumbai

- * I worked with ThinkLABS (SINE, IITB) initially as an intern followed by a full-term employment. Our focus was in Robotics and Embedded Systems. Being involved in the design, development, test and improvement phases both hardware and software of products

EDUCATION

Dr. Babasaheb Ambedkar Marathwada University

Aurangabad, Maharashtra

B.Tech in Electronics and Telecommunication Engineering

May 2005 - May 2009

MSRSAS (Bangalore) Affiliated to Coventry University UK

Bangalore, India

M.S. [Engineering] in Real Time Embedded Systems

Sept 2010 - May 2012

Universiti Teknologi Malaysia

JB Malaysia

PhD (AI for V2X communications) (Pursuing)

April 2019 - till date

Name: Mohammed Laeeq Shaikh

Date of birth: 11th March 1987

Martial status: Married

Current Location: Chhatrapati Sambhajnagar (Aurangabad) Maharashtra 431001

Preferred Location: Mumbai, Pune, Nagpur, Nashik, Hyderabad, Bangalore

Notice period: 30 days

Last update: October 9, 2026
